# Tree Services

## Tree Cutting, Pruning & Transplanting

Trees that are pruned well are healthier, safer, more attractive, live longer and compliment the rest of your property. Our certified arborists will prune and trim to national standards that promote the least amount of stress on your trees.

### Tree Pruning

We have a team of certified Tree Climbers who is well-equipped with the skills and experience needed to safely prune the trees. Our services include Crown Cleaning, Crown Thinning, Crown Reduction and Pollarding.

### Transplanting

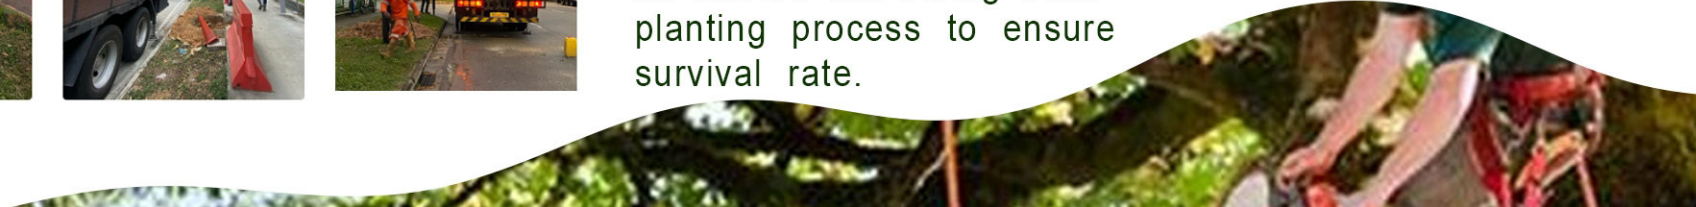

Tree transplanting is a formidable task which need dedicated and well equipped team to ensure that each tree gets transplanted safely. Our Certified Arborists evaluate the trees and procedure to be carried out during transplanting process to ensure survival rate.

### Tree Removal

We have certified tree workers to carryout tree removal including grubbing up of roots , our team prioritise the safety and follow industry standards.

### Tree Planting

Tree Planting is the process of introducing and establishing a new tree in a designated location. Typically involves planting saplings or young trees to enhance landscaping, improve aesthetics. Our Certified Arborists suggests the suitable trees for your premises and we can able to supply wide variety of trees..

## Arboriculture Consultancy

**Our ISA Certified Arborists provides tree assessment, tree surveying and tree report services.**

1. Visual Tree Assessment (VTA) at ground level and submit CA Report.
2. Visual Tree Assessment (VTA) with Elevated Working Platform and submit CA Report.
3. Root Exploration Test/ Construction Impact Assessment and submit CA Report.
4. Determination of Internal Decay with Resistograph and submit CA Report.
5. Supervision of Tree Care Operations, Tree Protection Plan and Monthly Inspection and submit CA Report.

# Landscaping

## Add a New Color of Green Perspective

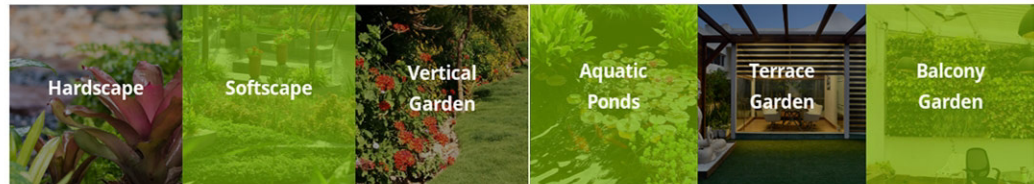

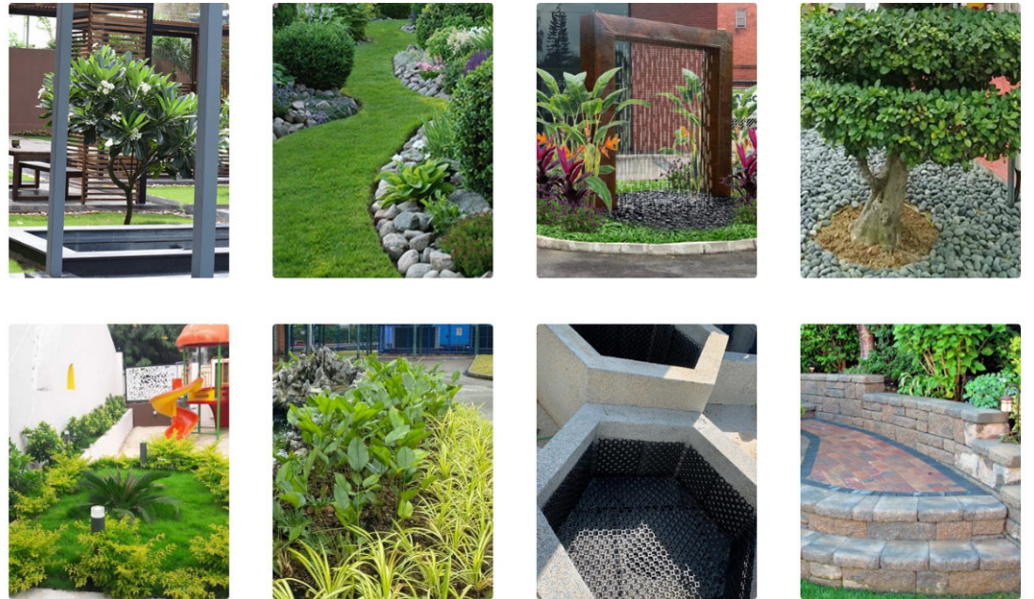

MLC is a specialist contractor providing reliable and quality commercial & residential landscaping services. We offer landscape design & build with a dedicated and hardworking team.

We create beautiful gardens, passionately and professionally. Adding value to your property. We specialize in the design and construction of parks, sports grounds, commercial landscaping, domestic landscaping, landscape design, installation and maintenance.

Our unique approach enables us to offer our clients the most flexible garden design and landscaping service available.

## Landscaping Projects

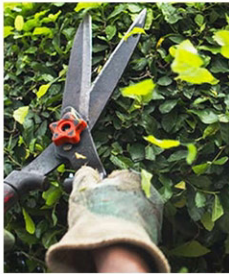

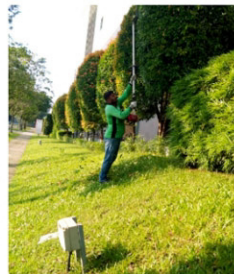

## Landscape Maintenance

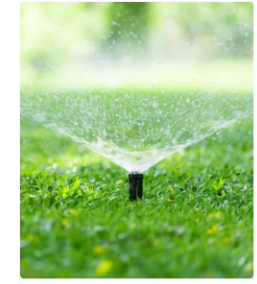

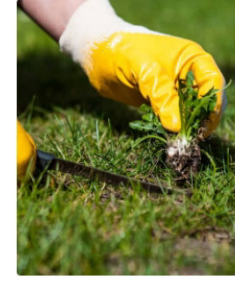

Professional garden maintenance is vital to the long-term success of any garden landscape.

Landscape maintenance is performed to keep your landscape looking well. It usually includes plant pruning, cutting grass, weed care, soil preparation, pest control, fertilisation, and other services.

## Lawn care Services

Our aeration services help secure your lawn from excessive drought and foot traffic. Allow our experts to guide you through the perfect aeration plan in order to improve your turf grass growth and development.

We use state of the art equipment's to provide you with a healthy and vibrant lawn, and a landscape as a whole.
